DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Lewis US 3,873,494 taken with Ongchin US 4,246,142.

3. The rejection set forth in the paper mailed 4/1/08 is deemed proper and is herein repeated.

4. Applicants arguments filed 6/19/08 have been fully considered but have been found not persuasive.

5. Applicants argue that the art fails to teach a carboxyl modified polyethylene or polypropylene. Applicants further point out that the specification describes a synergistic effect when the polymers are used in combination. This is not persuasive. The ethylene and propylene polymers described in the art fall within the scope of the claimed carboxyl modified polyethylene and propylene. Copolymers having acid monomers and ethylene and/or propylene monomers are considered "carboxyl modified polyethylene or polypropylene". As such, these components are described in the art. The allegations of synergism have been fully considered but have been found not persuasive. There remains no showing of record that compares the closest art with the scope of the claim. Further, the burden is on applicant to show the alleged synergism.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
